

Credentialing and Medical Staff Services

- Application for membership and privileges
- Qualification: Board certification or obtained within 5 years of initial appointment.
- Centralized application & verification process at St. David's office
 - ◆ Separate approval at each facility
- Website for Meetings, Bylaws, Rules and Regulations, and other information
 - ◆ www.sahmedweb.com

As a member of the St. David's HealthCare, South Austin Medical Center participates in the centralized application and verification process. It is very important to understand that the application and verification process is the only function that is centralized. Everything else is facility specific. Therefore, once the HCA Credentialing Processing Center (CPC) completes and collects all necessary documentation regarding your application, it is forwarded to each facility where privileges have been requested. Each facility will then take the application through its own committee approval process. Final approval is granted by each facility's Board.

To keep up to date on the latest Medical Staff activities, new, and information concerning meetings there is a website for your convenience. It is www.sahmedweb.com.

If you have any other questions, feel free to contact the medical staff office at 816-7102 or stop by in Administration which is on the first floor by the North lobby of the hospital.
