

Physician Health

- Forms of Impairment
 - ◆ Alcoholism and other drug use
 - ◆ Other psychiatric disorders

- Addressed by the TCMS Physician Health and Rehabilitation committee

We are required by JCAHO to educate the medical staff about issues related to physician health. Our Medical Staff leadership normally engages the assistance of the Travis County Medical Society's (TCMS) Physicians Health and Rehabilitation Committee in addressing physician health problems. More specific steps related to this process are addressed in the Medical Staff Bylaws.
